4. AFFORDABLE HOUSING RESOURCES- A statement of the affordable housing resources currently available and to be made available during the period, including a description of:

- a. the significant characteristics of the housing market in the jurisdiction, including the availability of housing from other public sources, private market housing, and the manner in which such characteristics influence the decision of the recipient to use grant amounts to be provided under this Act for rental assistance, production of new units, acquisition of existing units, or rehabilitation of units;

**Please enter the characteristics of the housing market here:**

The housing market characteristics in the jurisdiction vary widely due to the size and diversity of the area. There are several public sources for housing including housing authorities and community action agencies in the jurisdiction. Likewise, the private market housing in some areas is significantly improving while other locations are stagnant or deteriorating. This is how the Nation's housing programs are designed to be as flexible as possible to meet local conditions: Mortgage Assistance and Rental Assistance. Mortgage Assistance is available for either new construction or acquisition.

In addition, there is a documented need within the jurisdiction for the rehabilitation of privately-owned units of eligible Indian families. Therefore, significant resources are devoted to meeting this need, primarily for needy elderly and people with disabilities.

(Double-Click button to return to top)

b. the structure, coordination, and means of cooperation between the recipient and any other governmental entities in the development, submission, or implementation of housing plans, including a description of the involvement of private, public, and nonprofit organizations and institutions, and the use of loan guarantees under section 184 of the Housing and Community Development Act of 1992, and other housing assistance provided by the Federal Government for Indian tribes, including loans, grants, and mortgage insurance;

**Please enter the structure/coordination/cooperation with other entities here:**

The Nation entered into a subrecipient agreement with Housing Authority of the Delaware Tribe on June 29, 2006 to enable it (HADT) to maintain and operate its 1937 Act units and for other purposes as specified in the agreement. The HADT determines what activities it wants to include in the IHP with the Cherokee Nation's concurrence.

The Cherokee Nation through the Housing Authority of the Cherokee Nation has existing written cooperative agreements and relationships with numerous agencies.

Presently, housing staff provides technical assistance to persons interested in applying for the Section 184 program, and makes referrals to the Nation for application. The Nation has administered the Section 184-assistance program for several years.

The Cherokee Nation has identified financial institutions within the jurisdictional area approved for the 184-loan program, and the Nation has created the foreclosure procedures as required in the development of the program. It encourages the use of Section 184 in conjunction with its Mortgage Assistance program.

In addition, the Cherokee Nation has engaged in a community planning process with many of the local rural communities consisting predominately of Indian/Cherokee citizens. Likewise, contacts are ongoing with local rural school systems to engage them in the implementation of the IHP in regard to land acquisition.

The HADT will utilize the Boys & Girls Club for some activities for housing residents, i.e. youth.

(Double-Click button to return to top)

c. the manner in which the plan will address the needs identified pursuant to the Statement of Needs Section in paragraph 2;

**Please enter the manner in which housing needs will be addressed here:**

The plan was developed to address the highest priority needs, previous commitments, and those items required by regulation. After reviewing the cost of operations, comprehensive modernization needs, maintenance of the 1937 units, required insurance, reserve needs, and the continued development of units, limited funds exist for new or model programs. These activities will be studied and evaluated annually and implementation plans developed when the feasibility is favorable. Extensive efforts will go toward leveraging additional resources, including grants and loans for the expansion of housing opportunities and services. Housing needs will be met in accordance with the Nation's housing policies and priorities for serving the greatest number of Cherokees possible, including the needy elderly, needy disabled, the needy handicapped, the "neediest of the needy" individuals and families and families capable of self-help, and serving rural Indian areas where available housing is minimal.

The needs identified far outweigh the available resources.

The plan approaches the problem by addressing previous and current commitments for operations of the 1937 units, comprehensive modernization needs, security needs, resident services, and providing assistance to persons currently approved.

The applications, waiting lists, citizen comments and survey data are the best resources available for design and implementation of programs. These items were utilized in the development of the one and five-year plans and in identifying budget needs for FY 2008 Cherokee Housing Plan.

This data will assist with determining the areas for future development, acquisition of land, and infrastructure needs. The data relative to the composition of families to be served and the projected income/revenue from servicing these families will assist in the provision of services based on the ability of the family to pay.

Additionally, this data will serve as an evaluation tool to measure progress.

(Double-Click button to return to top)

d. the manner in which the recipient will protect and maintain the viability of housing owned and operated by the recipient that was developed under a contract between the Secretary and an Indian housing authority pursuant to the United States Housing Act of 1937;

**Please enter the manner in which 1937 Act housing will be protected/maintained here:**

1937 Act Housing Units - During this plan year, insurance coverage will be maintained through Amerind Insurance for all units owned by the HACN.

Homebuyers shall be expected to comply with their responsibilities under MHO Agreements, lease-purchase provisions, etc. in regard to maintenance and repairs.

The one-year goals and objectives provide for inspections, rehabilitation, operation, and maintenance of 1937 Act units. Inspections by NAHASDA funded staff are conducted annually at move-in and at move-out. These inspections aid in identifying and prioritizing work items to be included in this and in subsequent housing plans.

Aside from rehab, routine maintenance will be performed as needed, with work orders being completed as requested by tenants and in a timely manner.

Various counseling services are offered to assist our homebuyers and tenants in upholding their obligations under lease agreements, specifically in regard to upkeep and maintenance of their home.

Funds shall be transferred to the HADT to maintain and operate its Mutual Help and Low Rent programs and units through negotiated work items, budgets, etc. In addition, the HADT will utilize any operating receipts from its existing programs for expenses related to these programs.

k. the entity that will carry out the activities under the plan, including the organizational capacity and key personnel of the entity.

**Please enter your Organizational capacity & key personnel that will carry out IHP activities here:**

The 2008 Cherokee Indian Housing Plan was developed through a coordinated effort between housing staff, the Principal Chief, the Cherokee Nation, and the Nation's Council.

The Cherokee Nation is the recipient of funds and utilizes many different offices to administer and manage them depending on area of expertise. The Nation has been recipient for the last several years and will be responsible for implementing and overseeing the housing activities outlined in the one-year and five-year sections of the plan.

The Cherokee Nation has managed and administered an increasing number of the programs funded under the IHP since it became the recipient in 2000. It now is in the process of absorbing HACN personnel to manage the remaining programs under the tribal administration. The same employees will be operating the programs for the most part.

Cherokee Nation personnel who have various duties and responsibilities as indicated include: ~~Don Vaughn~~ **Pat Ragsdale** (internal auditing and monitoring), Diane Kelley (job training and self sufficiency activities), Anna Knight (Individual Development Accounts, Mortgage Assistance, and Self Sufficiency Counseling), Norma Merriman (transitional/emergency housing, elder protection, family unification activities, and Rental Assistance), Charlie Soap (self-help housing, housing and infrastructure coordination and community youth development), Sharon Wright (Marshal Service and law enforcement), Wayne Isaacs (LBP identification and environmental reviews), ~~Jack Farmer~~ **Angela Drewes** (land acquisition), Callie Catcher (Controller), and David Southerland (Management of units and Rehabilitation of Privately-owned units).

The HADT has been in existence nearly 30 years. Its Executive Director is Mike Ellick who has three years of experience in Indian housing.

5. **PERFORMANCE OBJECTIVES** In accordance with 24 CFR 1000.504, performance objectives are to be developed by each recipient and included in this 1-year plan. Performance objectives are criteria by which the recipient will monitor and evaluate its performance; provide quantitative measurements by which the recipient will gauge its performance; and determine the impact and benefit the grant beneficiary derives from the accomplishments obtained under the plan. For example, if in the IHP, the recipient indicates it will build new houses, the performance objective may be the completion of the homes within a certain time period and within a certain budgeted amount, and measure the number of tribal members and families served.

**Data Source:** The Nation utilized the 1990 and 2000 census data (as available), tribal enrollment records, waiting lists, surveys, meetings, state commerce department data, Tribal CDBG and HIP program needs data to determine the figures represented in this table. Some of the data was very outdated and/or not available. In those cases, percentages were utilized in relation to the available data: percents of total populations, indian populations, and low-income persons. Also, 2006 Formula Data was used.

Under the Statement of Needs, the following definitions apply:  
**Overcrowded conditions** - households with more than 1.01 persons per room, unless stated otherwise within individual program policies.

**Units Needing Rehabilitation** - activities will be completed in accordance with established rehab standards. Emergency modernization repairs may be specific in nature and will not require the unit to meet Housing Quality Standards.

Rehabilitation of units will be completed according to the adopted standards which allow flexibility by the unit occupant to decline specific renovations or the installation of specific components due to the creation of a financial burden upon installation of these items, and for cultural reasons. These standards still provide that the house is safe; in a physically sound condition, with all systems performing their designed functions; in a livable home environment; an energy efficient building and systems which incorporate energy conservation measures; adequate space and privacy for all intended household members.

**Other Exclusions from income** - other exclusion from income may be allowed within individual program policies.

**Please enter your Useful Life Information:**

The "useful life" of each assisted housing unit will be determined by the amount of IHBG funds invested (as defined in IHBG Program Guidance 2005-10) as follows:	
<u>IHBG Funds Invested</u>	<u>Affordability Period</u>
Under \$5,000.....	1 year
\$5,000 to \$15,000.....	5 years
\$15,001 to \$30,000.....	10 years
\$30,001 to \$50,000.....	15 years
