- 1976 US COAST GUARD, Tok, Alaska  
Iron Worker. Worked in a field crew erecting four 700' guyed towers with cable antenna systems.
- 1970 1975 Miscellaneous jobs working out of Iron Workers Local Union 584, Tulsa, Oklahoma

During the years since 1970, I have been employed by so many contractors it is impractical and impossible to name them all. Some were for a day or two projects, and some were for months or years. During the many years of work, starting as an Apprentice and advancing to Journeyman, being employed in various capacities, I have accumulated a considerable amount of technical knowledge and practical experience. It is impractical to present every detail, method, and trade practice on a sheet of paper. I am a non active vested member of Iron Workers Local Union 584 located in Tulsa, Oklahoma. The various employers listed above represent only a small portion, the locations have been worldwide. I have worked in 49 of the 50 states and one foreign country. I have years of hands on experience as crew member, crew foreman, job superintendent, tower superintendent, field superintendent, and inspector for all phases of the structural steel industry including but not limited to:

Erecting and modifying all types of towers from the ground up.

Rigging projects – Experience in all types of cranes, rigging equipment, winch trucks, multi drum hoists, hyd booms, etc.

Knowledge in blueprint and steel layouts of various types of towers and steel structures

Installation and orientation of antennas and waveguide

Maintenance of existing sites, including painting and custom design applications

Footings and pier foundation construction – concrete work

Bidding and procurement for all phases of tower erection, maintenance and modifications.
