4. AFFORDABLE HOUSING RESOURCES- A statement of the affordable housing resources currently available and to be made available during the period, including a description of:

- a. the significant characteristics of the housing market in the jurisdiction, including the availability of housing from other public sources, private market housing, and the manner in which such characteristics influence the decision of the recipient to use grant amounts to be provided under this Act for rental assistance, production of new units, acquisition of existing units, or rehabilitation of units;

Please enter the characteristics of the housing market here:

The housing market characteristics in the jurisdiction vary widely due to the size and diversity of the area. There are several public sources for housing including housing authorities and community action agencies in the jurisdiction. Likewise, the private market housing in some areas is significantly improving while other locations are stagnant or deteriorating. This is how the Nation's housing programs are designed to be as flexible as possible to meet local conditions: Mortgage assistance and rental assistance. Mortgage Assistance is available for either new construction or acquisition.

In addition, there is a documented need within the jurisdiction for the rehabilitation of privately-owned units of eligible Indian families. Therefore, significant resources are devoted to meeting this need.

(Double-Click button to return to top)

b. the structure, coordination, and means of cooperation between the recipient and any other governmental entities in the development, submission, or implementation of housing plans, including a description of the involvement of private, public, and nonprofit organizations and institutions, and the use of loan guarantees under section 184 of the Housing and Community Development Act of 1992, and other housing assistance provided by the Federal Government for Indian tribes, including loans, grants, and mortgage insurance;

Please enter the structure/coordination/cooperation with other entities here:

On June 12, 2000 the Nation's Council passed a resolution, which names the Cherokee Nation as the grant recipient and the Housing Authority of the Cherokee Nation as the sub-recipient.

Housing staff met with various social service agencies, employment agencies, housing service agencies, various funding agencies and supportive services in the development of the Five-year plan. These agencies will be utilized in the coordination and delivery of services.

The Nation through the Housing Authority has existing written cooperative agreements and relationships with numerous agencies.

Presently, housing staff provides technical assistance to persons interested in applying for the Section 184 program, and makes referrals to the Nation for application. The Nation has administered the Section 184-assistance program for several years.

The Housing Authority and Nation have identified financial institutions within the jurisdictional area approved for the 184-loan program, and the Nation has created the foreclosure procedures as required in the development of the program.

The Housing Authority has a partnership with the USDA and works with local lenders for the provision of mortgage financing.

The Nation entered into a subrecipient agreement with the Housing Authority of the Delaware Tribe on June 29, 2006 to enable it (HADT) to maintain and operate its 1937 Act units and for other purposes as specified in the agreement.

(Double-Click button to return to top)

c. the manner in which the plan will address the needs identified pursuant to the Statement of Needs Section in paragraph 2;

Please enter the manner in which housing needs will be addressed here:

The plan was developed to address the highest priority needs, previous commitments, and those items required by regulation. After reviewing the cost of operations, comprehensive modernization needs, maintenance of the 1937 units, required insurance, reserve needs, and the continued development of units, limited funds exist for new or model programs. These activities will be studied and evaluated annually and implementation plans developed when the feasibility is favorable. Extensive efforts will go toward leveraging additional resources, including grants and loans for the expansion of housing opportunities and services. Housing needs will be met in accordance with the Nation's housing policies and priorities for serving the greatest number of Cherokees possible, the elderly, disabled, and families capable of self-help, and serving rural Indian areas where available housing is minimal.

The needs identified far outweigh the available resources.

The plan approaches the problem by addressing previous and current commitments for operations of the 1937 units, comprehensive modernization needs, security needs, resident services, and providing assistance to persons currently approved.

The applications, waiting lists, citizen comments and survey data are the best resources available for design and implementation of programs. These items were utilized in the development of the one and five-year plans and in identifying budget needs for FY 2006 Cherokee Housing Plan.

This data will assist with determining the areas for future development, acquisition of land, and infrastructure needs. The data relative to the composition of families to be served and the projected income/revenue from servicing these families will assist in the provision of services based on the ability of the family to pay.

Additionally, this data will serve as an evaluation tool to measure progress.

d. the manner in which the recipient will protect and maintain the viability of housing owned and operated by the recipient that was developed under a contract between the Secretary and an Indian housing authority pursuant to the United States Housing Act of 1937;

Please enter the manner in which 1937 Act housing will be protected/maintained here:

Homebuyers shall be expected to comply with their responsibilities under MHO Agreements, lease-purchase provisions, etc. in regard to maintenance and repairs.

The one-year goals and objectives provide for inspections, rehabilitation, operation, and maintenance of 1937 Act units. Inspections by NAHASDA funded staff are conducted annually at move-in and at move-out. These inspections aid in identifying and prioritizing work items to be included in this and in subsequent housing plans.

Aside from rehab, routine maintenance will be performed as needed, with work orders being completed as requested by tenants and in a timely manner.

Various counseling services are offered to assist our homebuyers and tenants in upholding their obligations under lease agreements, specifically in regard to upkeep and maintenance of their home.

Funds shall be transferred to the HADT to maintain and operate its Mutual Help and Low Rent programs and units through negotiated work items, budgets, etc. In addition, the HADT will utilize any operating receipts from its existing programs for expenses related to these programs.

Please enter your Organizational capacity & key personnel that will carry out IHP activities here:

The 2006 Cherokee Indian Housing Plan was developed through a coordinated effort between housing staff, the Principal Chief, the Cherokee Nation, and the Nation's Council.

The Cherokee Nation is the recipient of funds and utilizes many different offices to administer and manage them depending on area of expertise. The Nation has been recipient for the last several years and will be responsible for implementing and overseeing the housing activities outlined in the one-year and five-year sections of the plan.

The Nation's housing authority, the Housing Authority of the Cherokee Nation has been in existence since 1966 and has had over 2,000 persons successfully complete the homeownership requirements under the Mutual Help Program. The HACN also has extensive experience in administering grant and contract programs, receiving numerous grant awards over the past several years. Most of the property for homeownership, i.e. lease-to-purchase units, and rental units are in its name.

The Housing Authority is organized with the Board of Commissioners serving at the top of the organizational structure. The Housing Authority Executive Director, David Southerland, has many years of experience in administering HUD programs. Current department directors also possess many years of valuable experience in implementation and operation of housing programs.

Cherokee Nation personnel who have various duties and responsibilities as indicated include: Melanie Knight (internal auditing and monitoring), Diane Kelley (job training and self sufficiency activities), Marvin Jones (APR/IHP, monitoring, and coordination), Anna Knight (Individual Development Accounts), Norma Merriman, (transitional/emergency housing, elder protection, and family unification activities), Sharon Wright (Marshal Service and law enforcement), Jeannine Hale (LBP identification and environmental reviews).

The HADT has been in existence nearly 30 years. Its Executive Director is Mike Ellick who has three years of experience in Indian housing.

5. **PERFORMANCE OBJECTIVES** In accordance with 24 CFR 1000.504, performance objectives are to be developed by each recipient and included in this 1-year plan. Performance objectives are criteria by which the recipient will monitor and evaluate its performance; provide quantitative measurements by which the recipient will gauge its performance; and determine the impact and benefit the grant beneficiary derives from the accomplishments obtained under the plan. For example, if in the IHP, the recipient indicates it will build new houses, the performance objective may be the completion of the homes within a certain time period and within a certain budgeted amount, and measure the number of tribal members and families served.

Data Source: The Nation utilized the 1990 and 2000 census data (as available), tribal enrollment records, waiting lists, surveys, meetings, state commerce department data, Tribal CDBG and HIP program needs data to determine the figures represented in this table. Some of the data was very outdated and/or not available. In those cases, percentages were utilized in relation to the available data: percents of total populations, indian populations, and low-income persons. Also, 2006 Formula Data was used.

Under the Statement of Needs, the following definitions apply:

Overcrowded conditions - households with more than 1.01 persons per room, unless stated otherwise within individual program policies.

Units Needing Rehabilitation - activities will be completed in accordance with established rehab standards. Emergency modernization repairs may be specific in nature and will not require the unit to meet Housing Quality Standards.

Rehabilitation of units will be completed according to the adopted standards which allow flexibility by the unit occupant to decline specific renovations or the installation of specific components due to the creation of a financial burden upon installation of these items, and for cultural reasons. These standards still provide that the house is safe; in a physically sound condition, with all systems performing their designed functions; in a livable home environment; an energy efficient building and systems which incorporate energy conservation measures; adequate space and privacy for all intended household members.

Other Exclusions from income - other exclusion from income may be allowed within individual program policies.

OTHER SUBMISSIONS

Recipients of NAHASDA funds are required to prepare and submit the following information:

1. Useful Life

Sections 205(a)(2) and 209 of NAHASDA requires that housing remain affordable. Each recipient will determine the "useful life" period for its units. The useful life of each assisted housing unit in each development must be described. This information may be described here or in the affordable housing resources section of the 1-year plan.

Please enter your Useful Life Information:

The "useful life" of each assisted housing unit will be determined by the amount of IHBG funds invested (as defined in IHBG Program Guidance 2005-10) as follows:

<u>IHBG Funds Invested</u>	<u>Affordability Period</u>
Under \$5,000.....	1 year
\$5,000 to \$15,000.....	5 years
\$15,001 to \$30,000.....	10 years
\$30,001 to \$50,000.....	15 years
Over \$50,000.....	20 years

These provisions shall be assured through binding commitments to ensure that each housing unit will remain affordable for its "useful life."

2. Model Housing Activities

Recipients are required to submit proposals to operate model housing activities or other housing programs as defined in NAHASDA sections 201(b)(2) and 202(6) for non low-income families. If a model housing activity is to be undertaken during the 1-year plan period, proposals may be included here, in the affordable housing resources section of the 1-year plan, or as a separate submission. All proposals must be approved by the Secretary prior to beginning any model housing activity.

Please enter your Model Housing Activities here:

The Cherokee Nation proposes to construct two structures for the warehousing and storage of building materials, including structural insulated panels, exclusively to be used for new houses under NAHASDA for eligible applicants. One structure would be located in Stilwell, Oklahoma and the other in Tahlequah, Oklahoma. These structures are situated so as to shorten the distance the materials would need to be carried to arrive at the different building sites within Cherokee Nation. Both will be pole barn style structures. Each structure will be 15,000 square feet of storage space (100' x 150') with 16' walls (without a concrete floor). They are estimated at a cost of \$100,000 each. The structures fall within the eligible model activities listed in the ONAP Guidance No. 2001-02T, November 20, 2000.

3. Tribal and other Indian Preference

Section 201(b)(4) of NAHASDA allows preference for tribal members and other Indian families. If preference will be given to tribal members or other Indian families, the preference policy must be described. This information may be provided here or in the affordable housing resources section of the 1-year plan.

Please enter your preference policy here:

In accordance with policies, preference shall be provided for admissions to housing assistance funded in part or whole by IHBG funds to persons who are citizens of the Cherokee Nation. The HADT shall utilize its own preferences for any funding subgranted to it.

4. Planning and Administration

In accordance with the Final Rule, state the percentage of annual grant funds which will be used for planning and administrative purposes. If the amount is over 20 percent of the annual grant amount, HUD approval is required.

Please enter your planning and administration here:

During this plan year, the Cherokee Nation will use 12.7% of the grant amount for planning and administrative activities. The percentage based on the principal and program income IHBG amount is ~~\$4,150,000~~ \$4,164,437 divided by ~~\$32,680,986~~ \$32,681,016.

5. Minimal Funding

As stated in the Final Rule, the first year of NAHASDA participation, a tribe whose allocation is less than \$50,000 under the need component of the formula shall have its need component of the grant adjusted to \$50,000. Certify here that there is a need for funding.

Please enter your minimal funding here:

6. Method of Payment

In accordance with the Final Rule, state the method of payment the tribe/THDE will use to request its grant funds.
